

# CORUNEX

INDUSTRIAL WATER

WATER TREATMENT

## TECHNICAL DATA

CORU-KAY  
Non-Slip Solution

## *PRODUCT DESCRIPTION*

Non-Slip Liquid is produced as a transparent solution that provides non-slip properties on shiny and slippery surfaces and increases the friction coefficient of the surface. It provides non-slip properties by penetrating into the ground without changing the appearance of the surface it is applied to. It shows anti-slip performance in both wet and dry conditions by being applied on floor covering products such as ceramics, tiles, marble.

## *AREAS OF USE*

-Ceramic, -Marble, -Tile etc. covered floor

## *PRODUCT FEATURES*

- It is an easy-to apply and practical product.
- It does not destroy the decorative appearance of the existing floor.
- Does not form a coating or film on the ground.
- It is durable for a long time and does not deform from rain, snow and UV rays.
- Color: Transparent

---

## *APPLICATION*

The surface covered with ceramic, marble, tile, etc. where the application will be made should be cleaned of oil, dust and dirt, washed and rinsed with plenty of water. After the surface to be applied is dry after cleaning, the Anti-Slip Solution should be poured into a clean container and applied to the entire surface using a roller and brush. Water should never be added to the product. After waiting for 30-45 minutes, at least 30 minutes after application, the surface should be washed with plenty of water to remove the Solution from the surface.

---

# PACKAGING AND CONSUMPTION

-Varies between 0.100-0.150 gr.

-1 LT PASTIC

---

## STORAGE

- It should be protected from adverse weather conditions.
- It should be stored in a dry, cool, closed environment (+10 o C and +25 o C).
- The opened and mixed product should be consumed immediately.
- It has a shelf life of 12 months in its unopened packaging, in dry places at a minimum temperature of +5 °C.

## WARNINGS

Do not leave the packaging lid open. (S 7) Do not expose to direct sunlight and heat. (S 315) Keep out of reach of children. (S 3) Eyes and skin should be protected in all chemical substances. (S 24/25) Since this technical bulletin has been prepared by taking into account general conditions, please obtain written information for details that are not sufficient above. Otherwise, errors due to lack of information do not impose any liability on our company. This technical bulletin invalidates previous bulletins related to this product.
